

A G4 melting temperature

2,274 records; 400 sequence groups

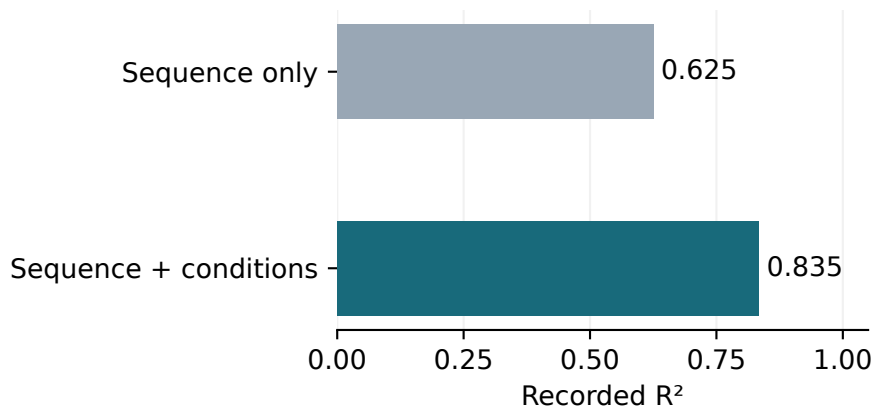

B i-motif transitional pH

160 records; 85 sequence groups

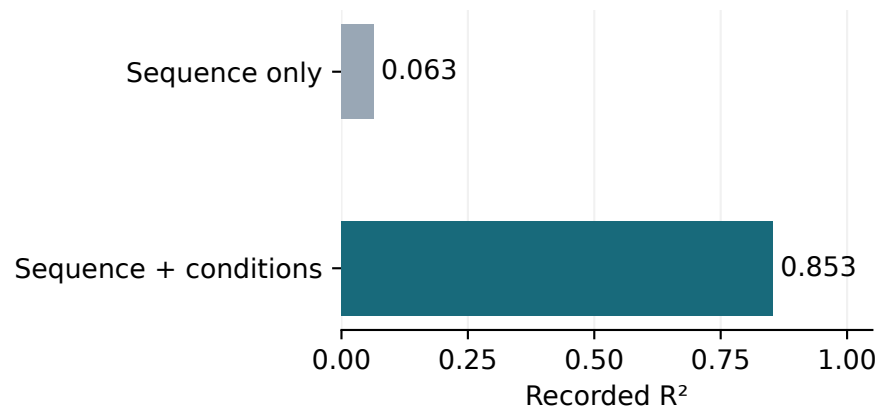

C i-motif pH, condition model

558 records; 10 condition groups

D i-motif Tm, condition model

379 records; 10 condition groups

C-D: condition holdout for C9 and Tel21C only. Point estimates; no uncertainty bars.
